SUMMARY

Enthusiastic finance graduate with a understanding of investment principles and market analysis, seeking to start a career as an equity research analyst. Eager to apply academic knowledge and analytical skills to real-world financial challenges.

Future Goals

Aspiring to contribute to a dynamic team in the finance sector, providing insightful research and analysis to support investment decisions.

WORK EXPERIENCE

JIO FIBER (SALES OFFICER) **APRIL 2023 - FEBRUARY2024**

Jio Fiber is a high-speed broadband service provided by Reliance Jio. It offers a range of internet plans with high bandwidth and additional benefits, such as access to OTT platforms, voice calling, and more.

- My role involved generating leads through field visits, cold calling, and networking, while providing detailed product demonstrations and post-sales support to ensure customer satisfaction. I collaborated with installation teams to ensure timely service delivery and maintained accurate sales records.

RETURN FIRST- INVESTMENT ADVISORS (SUMMER INTERNSHIP) **JUNE 2024 - JULY2024**

A Financial advisory firm specializing in wealth management, mutual fund ,tax planning and more. Their services include tailored investment strategies for client’s financial goals.

- My role involved conducting comprehensive research on top- performing mid cap, large- cap and small- cap mutual fund schemes focusing with the IT Sector, analyzing investment performance, and market growth focusing to IT Sector.

HOBBIES

- TRAVELLING
- COOKING
- PAINTING AND SUCLPTURING

KEY ACHIEVEMENTS

Multidisciplinary Action Project
on "A Study on the role of communication in enhancing productivity and efficiency at ISKO Engineering Pvt. Ltd."

- Identified communication gaps at Isko Engineering that caused inefficiencies between departments. By proposing solutions like implementing a centralized ERP system, regular inter-departmental meetings, standardized reporting, and cross-departmental training, you streamlined workflows and improved collaboration. These actions enhanced operational efficiency, reduced delays, and aligned the company's processes with its growth and sustainability goals.

Summer Internship Project
on "The Study On Investor Behaviour And Mutual Fund Selection."

- Conducted a study on investor behavior and mutual fund selection during my internship at Return First Financial Advisors. Utilized primary data from 81 respondents and secondary research to analyze factors influencing mutual fund investments, such as tax savings, liquidity, and risk. Designed and executed surveys, performed data analysis using statistical tools, and presented actionable insights to improve investment strategies. The project enhanced my understanding of market trends and investor decision-making processes.

DECLARATION

I solemly declare that the above information is true to the best of my knowledge and beleif.
