1. Telephone, GST no, ESIC, PF number, TAN, PEC Should be optional.
2. Email Notifications-To whom these notifications will go?
3. Google Calender API use?
4. Branch-Arress is required, please add * in Address label,
5. Department/Designation/Pay Slab/Leave Type/Loan Option/Termination Type ETC-If required field Branch/Name is not entered and tried to save, form gets closed and user misses out on other entered parts. Form should stay open with validation message.(Same with Edit) Please check most of the modules with Add/Edit form sliders loading from right seems to have this issue.
6. Leave Type-Pay Slab-TYPO-Play Slab.
7. Play Slab-TYPO should be Pay Slab.
8. Leave Type-Days per Year should be numeric input, will make it easy for user.
9. Leave Type-Auto Calculated field-should be changed from Days per Year to Days per Month.
10. Want to understand Document Type option including "Required Field" option.
11. Loan Option, Module name should be changed to Loan Type
12. Job Stage-Does not seem much use of Drag and Drop. Can keep it as it is. Might need code example in future.
13. Competencies should have Active/inactive instead of delete.(Other modules also, will refine those details too)
14. Expense Type, Income Type, Payment Type, Contract Type-Usage should be defined(For Saksham Also)
15. System Setup-Breadcrumb should be defined correctly. It shows Home>Branch(System Setup>Branch)
16. System Setup-Menu structure repeats System Setup. It will confuse User. Internal system Setup can be changed to Admin Setup which has all activies/types related to HR setup.
17. TinyMCE Tool, Hope we have considered its commercial/license part.
18. When in System Setup-Internal menu opens. We should plan to expand and collapse left menu to have additional working space.
19.Company Policy-Attachment is required, Not accepting DOC type files as attachment. Leave policy should allow DOC, PDF attachments also.
20. If added big Description, Company Policy List UI gets stretched. Description column can be restricted or aligned correctly to manage UI based on available input.
21. Need to consider Document VS Company Policy menu usage.
22. Document-has restriction of The documents must be a file of type: csv, jpeg, jpg, pdf, png, xls, xlsx.
23. Document and

FOR Saksham

For creating Designations, do we need Departments as a required field?
For Leave types, do we need pay slab associated?
What will be the use of Loan Option.
How we can use Termination Type?
How we can use Job Stage?
How to use Performance Type? Yearly, Quarterly, Monthly??
Expense Type, Income Type, Payment Type, Contract Type-Usage should be defined
Need to consider Document VS Company Policy menu usage.
